

FULL-TIME ENROLLMENT REQUIREMENTS
IN ORDER TO ATTEND CLASSES

PURPOSE: To require full-time enrollment in order to attend classes.

Definition

Full-time basis is defined as attending classes for the full instructional day within the Tulsa Public Schools system or in conjunction with another state accredited institution such as a career/technical school, a technical school or a college or university for concurrent enrollment.

It is the policy of the Board that all students enrolling in Tulsa Public Schools must do so on a full-time basis. Only students enrolled on a full-time basis may attend classes within Tulsa Public Schools and participate in school-sponsored curricular, cocurricular, and extracurricular activities. The only exception to this policy is for special education students whose individual education plans require variations of student schedules. If at any time after the adoption of this policy, Oklahoma law allows part-time students to be counted for state aid purposes, the Board will reconsider this policy.
