At Tulsa MET We have a community garden where students build, grow and create. The garden gives hands on experiences in all academic subjects. This year we broke ground on our new garden vision and are working on bringing it to life!! Through hard work, we learn about the earth and ourselves and cultivate character.

learning. Students spent weeks preparing & the students did not disappoint. ❤️❤️ We have several community and educational partners that help make this yearly event successful & come in to help run events & serve as judges. We want to thank [Tulsa Tech](#), [The University of Tulsa](#), [Rogers State University](#), [Tulsa Regional STEM Alliance](#), & [Spirit AeroSystems](#) for your continued support each year! Below are some pictures:

At Dolores Huerta balance is what we strive for. We balance academics and experiences. Our vision is to let our students have plenty of in school and out of the school experiences so when our students move on they have the background necessary to be successful anywhere. Come see what makes Dolores Huerta special! Did I mention that we have seats available in all grades?
